

Jack wants to use the Career Relocation app to move him and his family elsewhere for better business

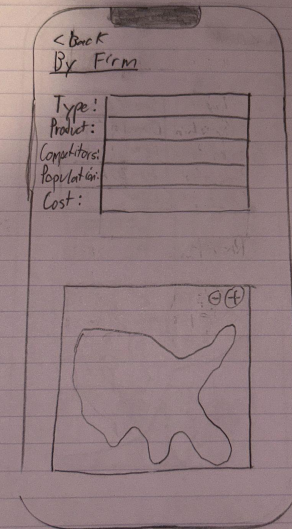

1

Jack is able to search by many filters, such as state, job type, firm type, or other

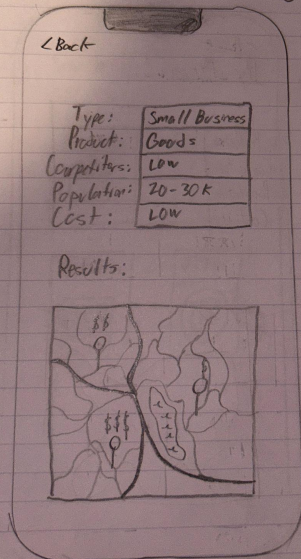

2

By searching via firm type Jack can filter through places which have similar firms with success

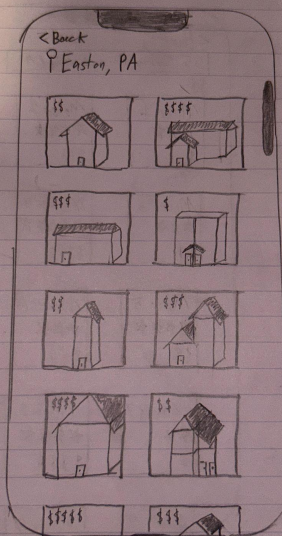

3

Jack simply plugs in information and our app gives him options to choose from including cost and location.

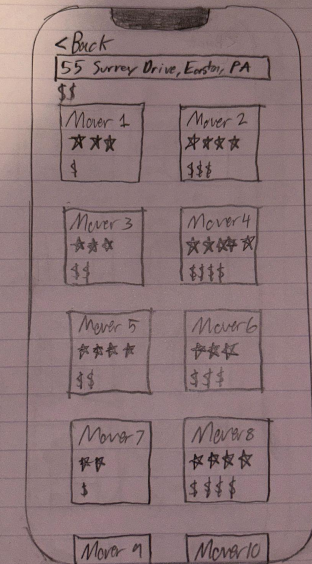

4

Once the location is selected, housing options become available for Jack to choose from

5

The App not only makes the house search process easy, but makes moving easy as well.
