---

Dear Carol Surface,

I wanted to express my strong interest in the software development position at Apple. In the past several years I have spent studying computer science, not only has software development quickly become something I'm very passionate about, but I am excited for the opportunity to contribute my knowledge and passion to a company as well renowned as yours is.

I have always been inspired by your company's vision, values, and the groundbreaking products you bring to the world. Apple's dedication to user experience and the seamless integration of hardware and software has set the industry standard, and I believe I can make a meaningful impact by joining your team.

Apple's statement, "We're all in," is something that resonates with me deeply. This core value of your company impacts me personally because I come from a very ethnically diverse background. The town I was born in had people from a wide range of backgrounds and walks of life. This let me learn a lot not only about myself but also about the importance of realizing everyone's differences.

Although I am a recent college graduate, I have worked closely with senior software developers from the likes of IBM, Google, and AT&T. My experience in working on several projects within each company has taught me to be adaptable, resourceful, efficient, and timely.

Furthermore, my ability to collaborate effectively with both technical and non-technical team members will enable me to contribute to Apple's dynamic work environment. I always love a challenge, and enjoy the opportunity to learn and grow. I would love to bring my skills, experience, and passion to Apple and contribute to the creation of your consistently industry-leading technology.

I'd like to extend my gratitude in appreciation for this opportunity as I look forward to the possibility of joining your exceptional team at Apple. Along with my resume, you can contact me at 224-619-8155 or @jlucaniajr@gmail.com to schedule an interview.

I'm eager to move forward with you and your team,

John Lucania

## Skills

Communication

Organization

Problem Solving

Teamwork

Technology

Responsibility

Leadership

## Overview

*Hardworking, driven, focused*

In all aspects of my life, I love a good challenge. I thrive when I'm presented with a goal that seems too difficult to achieve. I may not reach the goal, but I know I got more out of it than I would have otherwise. I've found this mentality in everything I do, from education to physical fitness, professional life, to social life. I'm blessed that I've been given this constant urge to work and improve, and it motivates me to be better every single day.

## Awards and Additional Activities

*Determined, achieving, motivated*

Throughout my middle school and high school experience, I've put many hours into volunteering and giving my time to others.

I was a counselor for two summers at Beacon Place, a group that provides meals and activities for children in Waukegan. In addition, I worked two summers at St. Mary's bible School as a counselor, teaching children about faith. In this same period, I received many awards for my citizenship, volunteer work, and academic performance in school.

## Experience

### ● Babysitting - 2017 - PRESENT

Cared for and supported the development of children. Provided meals, prepared for bed, made sure to keep kids safe until parents arrive home.

### ● Restaurant Associate - May 2021 - August 2021 Potbelly Lake Bluff

I joined the workforce in May 2021 as an associate at Potbelly Sandwich Shop in Lake Bluff. I enjoyed being a friendly face to customers while tending to their needs and keeping the shop a clean and safe space.

### ● Locker Room / Server - August 2021 - PRESENT Shoreacres Country Club, Lake Bluff

I currently work at Shoreacres golf club in Lake Bluff. During the summer months, I maintain the locker and grill room while preparing events and helping guests to their lockers. In the winter, when the course is closed, I work in the clubhouse as a Server. I'm also often requested to work special events because I can adapt easily and get things done in a timely fashion.

## Education

### ● High School-

AUG 2019 - MAY 2023

Lake Forest High  
School, Lake Forest IL

### ● College-

AUG 2023 - PRESENT

University of South  
Carolina,  
Columbia SC
