

A woman with long brown hair is seen from behind, looking out at a city skyline through a circular frame. The frame is made of concentric circles with a hand-drawn, sketchy texture. The background is a gradient of yellow and green.

THANK YOU

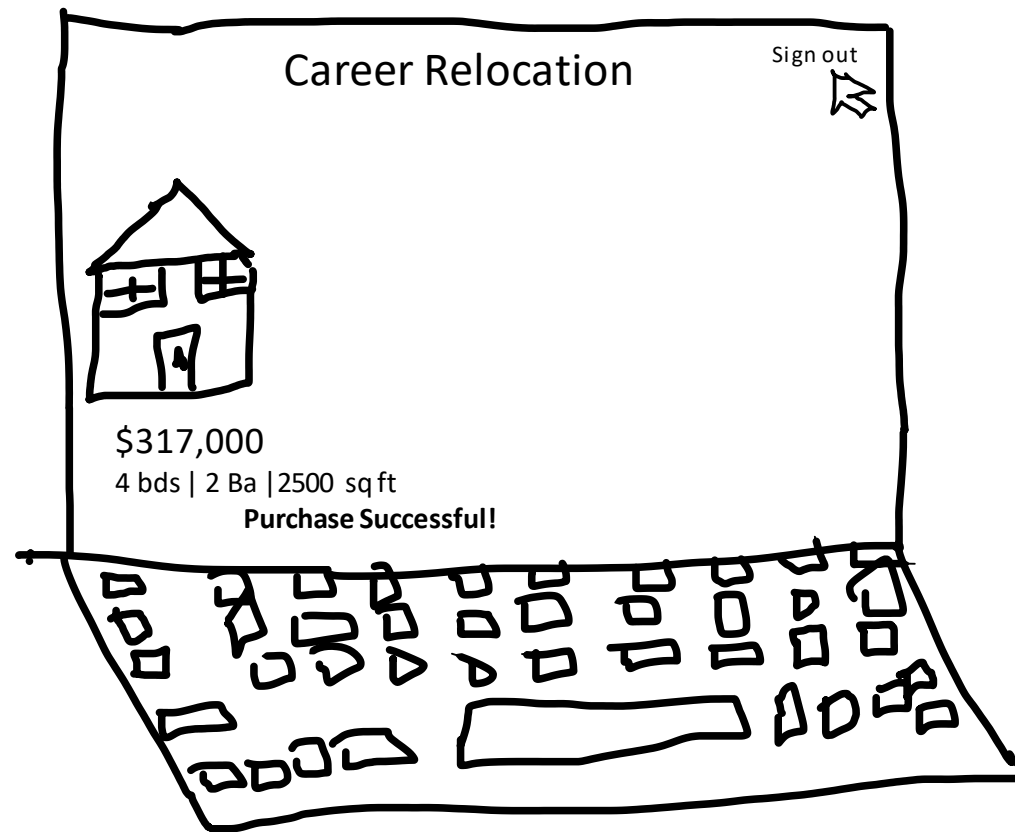

I am excited to move to a big city, but
relocating during this housing climate
will be a nightmare!

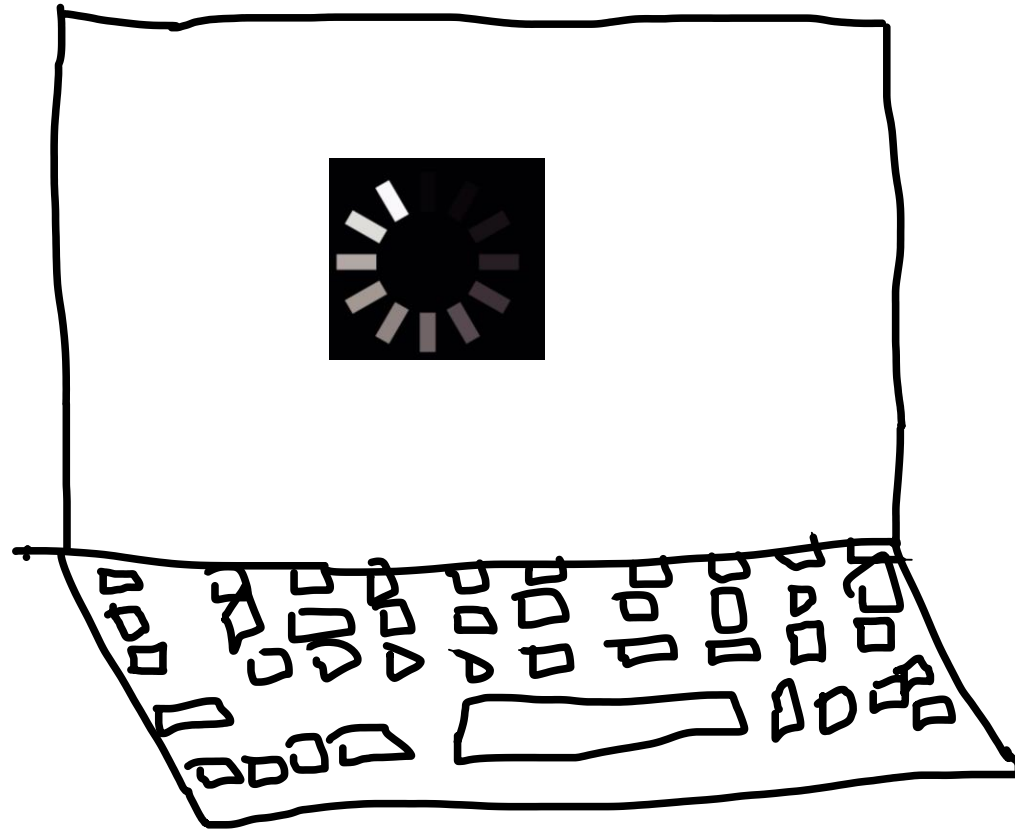

Payne Whitlock is currently a Data Analyst who received
a bachelor's degree from the University of South
Carolina.

Payne discovers the career relocation app, and decides to purchase a house on the app.

After successfully purchasing the house, Payne decides to logout of the application by clicking the sign out button at the top right corner of the screen.

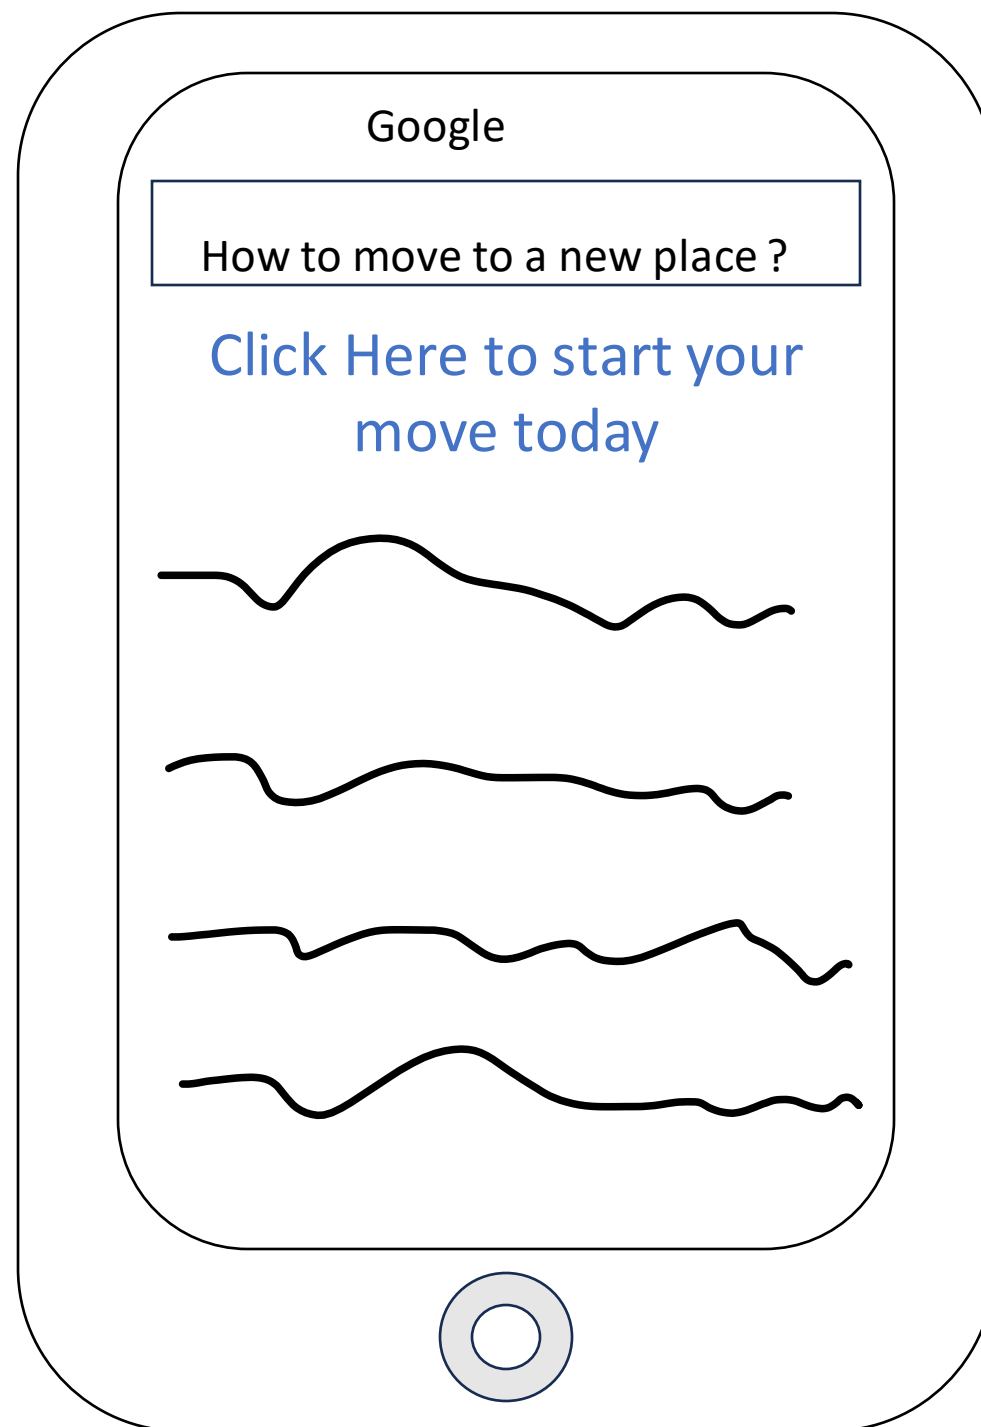

After clicking sign out, the application takes a second to ensure that the sign out is complete.

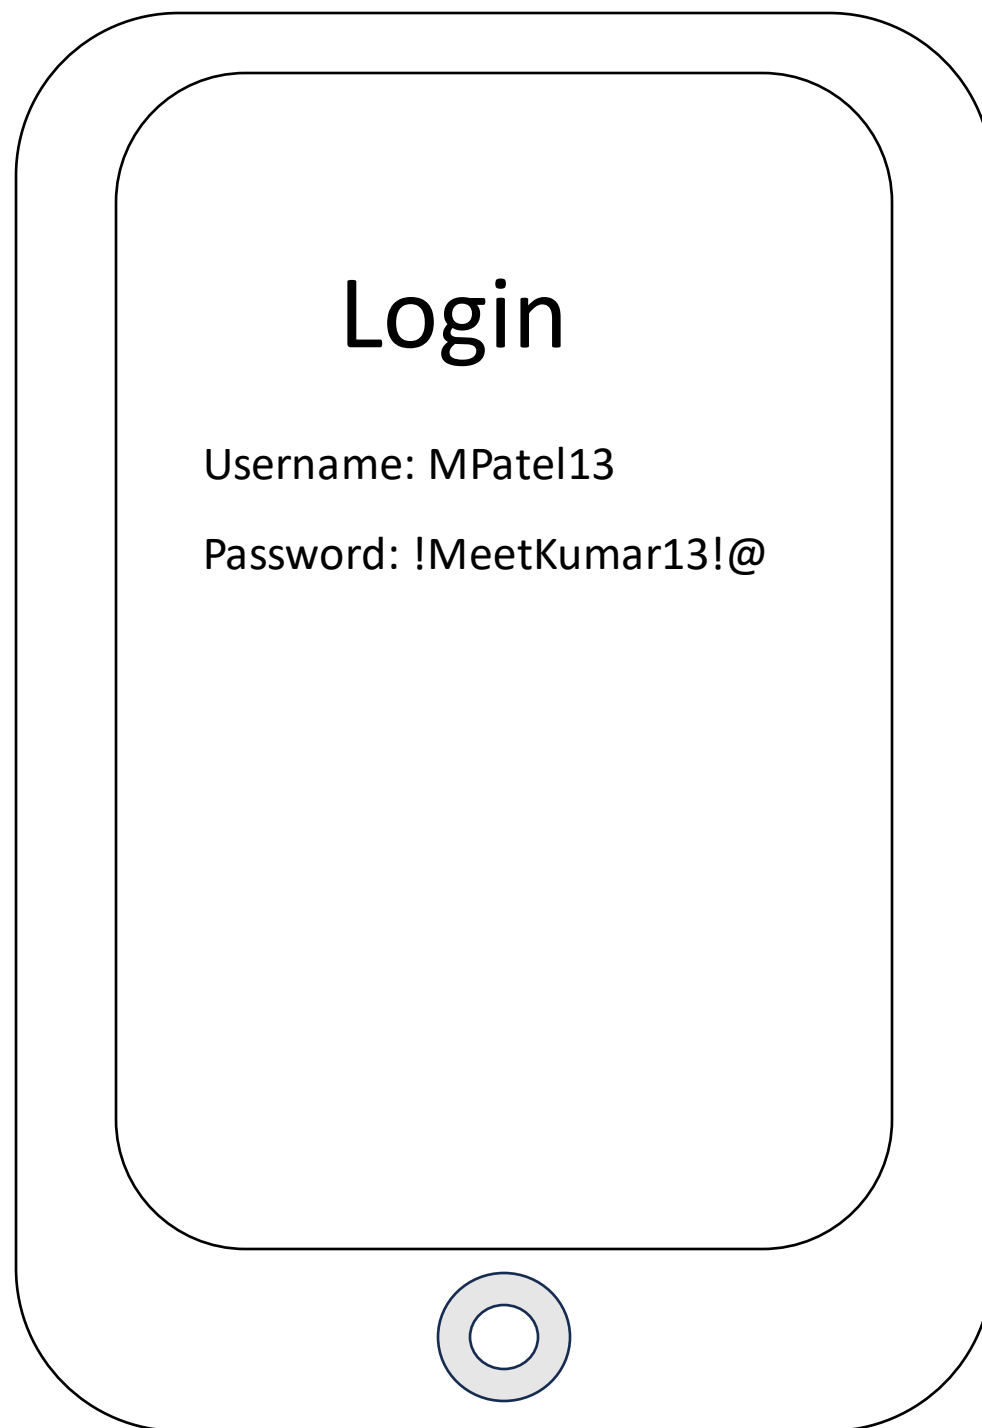

Payne successfully logged
out of the application.

This Meetkumar a grad from USC Columbia who got a job at a big city and wants to move there but has never moved by himself before.

Meetkumar is searching on his phone to move to a new place.

Meetkumar is logging in to
an application that will
help him move

Thank you
Good luck on journey to move to
a new home!

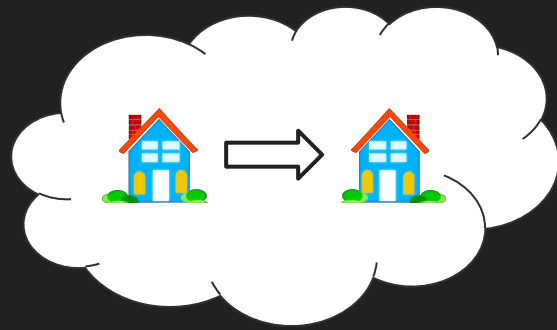

Meetkumar successful
logged in to the application

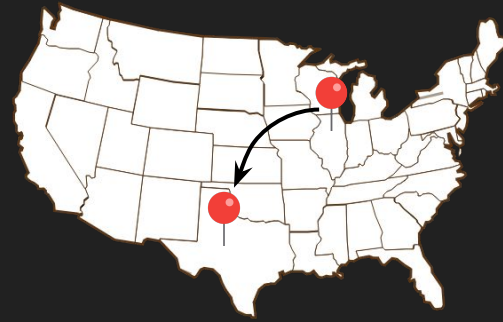

Jack currently lives in a small town in Illinois. He owns a small local business and has a wife and two kids.

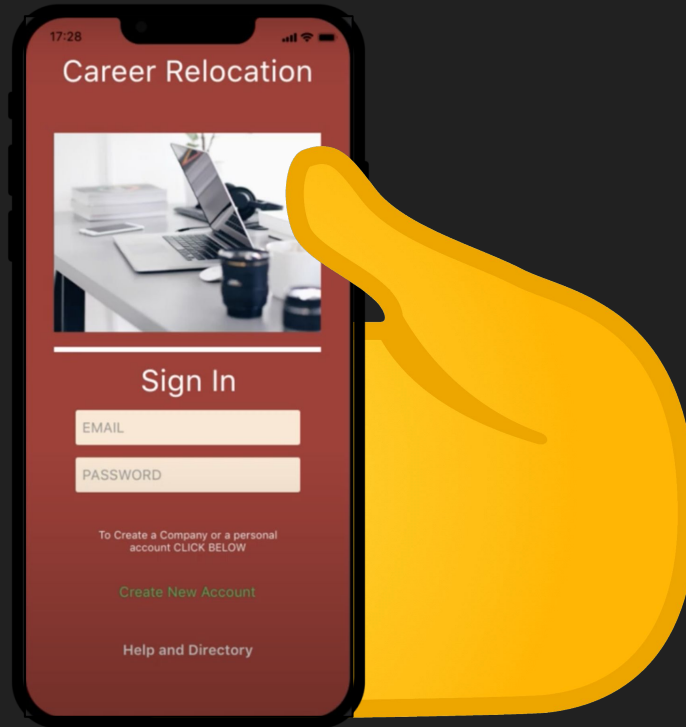

In his home town, the interest for his product is low, and he finds that he gets less customers than other local businesses.

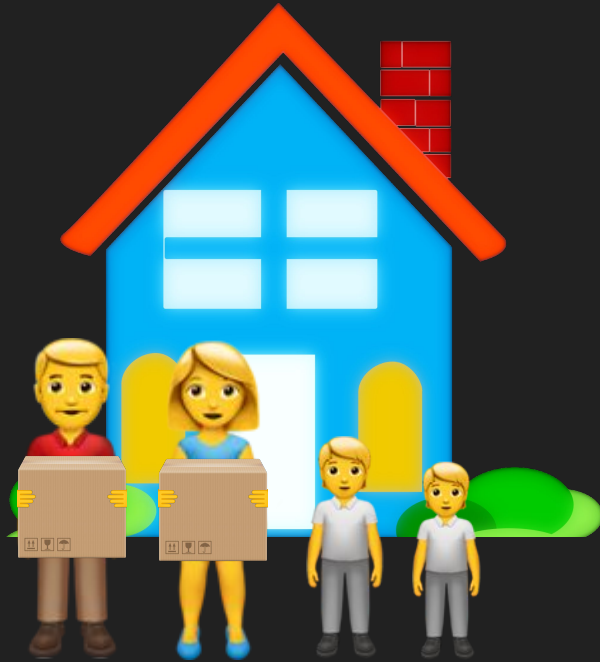

Jack talked to his wife about this and she brought up the idea of relocating to find a better place for his business.

Jack has never relocated like this before, and has some hesitation when it comes to relocating him and his business.

He used our career relocation app, which provided services such as what company he's with, allowed accommodations, and easy to find housing.

This made his move very easy and allowed for much more success for his business in this new location.
